DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim 12 is rejected under 35 U.S.C. 102(e) as being anticipated by Paolitto et al. (US 2003/0093091). Paolitto discloses a surgical “clip” comprising a substrate made of a polymeric material (paragraph 103) that is inherently biocompatible. The clip has an open and closed configuration (Figs. 3A-3B). The device has an adhesive coating (paragraph 106) that is inherently biocompatible and has a higher coefficient of friction than the substrate.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(c) which forms the basis for all obviousness rejections set forth in this Office action:

(c) Subject matter developed by another person, which qualifies as prior art only under one or more of subsections (e), (f), and (g) of section 102 of this title, shall not preclude patentability under this section where the subject matter and the claimed invention were, at the time the invention was made, owned by the same person or subject to an obligation of assignment to the same person.

Claim 13 is rejected under 35 U.S.C. 103(c) as being unpatentable over Paolitto in view of Sungberg (US 5,179,765). Paolitto is silent regarding a polypropylene substrate. Nevertheless, Sungberg discloses a clip made of polypropylene (Col. 2, lines 66-68) because it is easy and economical to manufacture. Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to make the Paolitto clip out of polypropylene as taught by Sungberg because polypropylene is easily and economically manufactured.

Response to Arguments

Applicant's arguments with respect to claims 13 and 14 are considered but are moot in view of the new grounds of rejection. Paolitto discloses a polymeric substrate material but is silent regarding the particular polymer. Sungberg teaches what Paolitto has left out: a polypropylene material. Clips and clamps are all within the same field of knowledge, whether the intended use is for surgery or for paper. Therefore, the Paolitto/Sungberg combination is deemed proper.

Allowable Subject Matter

Claims 3, 4, 6-11, 26-31 and 33-37 are allowed. Claim 32 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Matsuno et al. (US 2002/0173805).

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
